

COMPOSER PAPER - SELECTION

Student Name _____

Step One Selection:

Choose a composer for your term research paper.
You need to make sure this is an individual - not a group.
The subject of your research paper must be the actual composer - not merely a performer.
For composers of music with lyrics - the composer will be the person who has written the actual music, not necessarily the lyricist.
You may choose someone who writes any kind of music.
Choose carefully - make sure there is a wealth of material about your composer available.
